Dear Senators:

We urge you to follow the lead of your peers in the Senate Committee on Commerce, Science, and Transportation and support the AV START Act. The AV START Act establishes a framework for the safe testing, development, and deployment of self-driving cars.

Self-driving cars have the potential to provide accessible transportation to our seniors in an unprecedented way. As the leaders of the 60 Plus Association, and representative of its 7 million senior activists, we implore you to make the choice in the best interest of your constituents' and their access to transportation.

Self-driving cars will create a new opportunity for our nation's seniors to regain independence. With 10,000 citizens turning 65 every day in the U.S., the need for accessible transportation is growing. There's no question that seniors' quality of life is made better with access to safe transportation that meets basic needs like being able independently to get to doctors' appointments.

We ask you to support the AV START Act and bring this life-changing legislation to a vote. All votes on this legislation and other amendments pertaining to AV technology will be among those considered a key vote for 60 Plus Association's 2018 Congressional Ratings.

Sincerely,

James L. Martin
